Compatibility Testing Report for Shoplane Demo Website

1. Browsers Tested

- **Chrome (Latest Version)**
- **Firefox (Latest Version)**
- **Safari (Latest Version)**
- **Edge (Latest Version)**

2. Devices Tested

- **Desktop (Windows/Mac)**
- **Tablet (iPad, Android)**
- **Mobile (iPhone, Android)**

3. Test Scenarios and Findings

Scenario 1: Layout Consistency

- **Test:** Verify that the website layout is consistent across browsers and devices.
- **Findings:** No overlapping elements, but slight image alignment issues on tablet devices.
- **Recommendation:** Adjust CSS for better tablet responsiveness.

Scenario 2: Font and Text Size

- **Test:** Ensure font styles and sizes render consistently.
- **Findings:** Font rendering varies slightly on Safari (iPhone).
- **Recommendation:** Ensure a fallback font is defined.

Scenario 3: Broken Links

- **Test:** Check all links across pages.
- **Findings:** No broken links identified.

Scenario 4: Form Functionality

- **Test:** Test form submissions for all devices and browsers.
- **Findings:** Contact form works as expected across all devices.

Scenario 5: Page Load Speed

- **Test:** Measure page load speed across devices and browsers.
- **Findings:** Page load is slower on mobile Safari.
- **Recommendation:** Optimize images and minify CSS/JS files.

---

4. Summary

- **Overall Compatibility Issues Identified:** 2
- **Critical Issues:** None
- **Recommendations:** Improve tablet responsiveness and ensure font fallback settings.
